

Engage Members with Streamlined Equity Management

Orchestra is New Zealand's most popular private entity equity management solution, that is also fully integrated with the NZ Companies Office. Give your members full visibility of their holdings, and increase engagement with them.

A **cloud-based share registry** to help you meet the legal obligations for your co-operative.

A **member portal** for your stakeholders to access and gain visibility.

Communication tools designed to engage members with regular reporting and updates.

Document Vault to securely store and grant member access to relevant information.

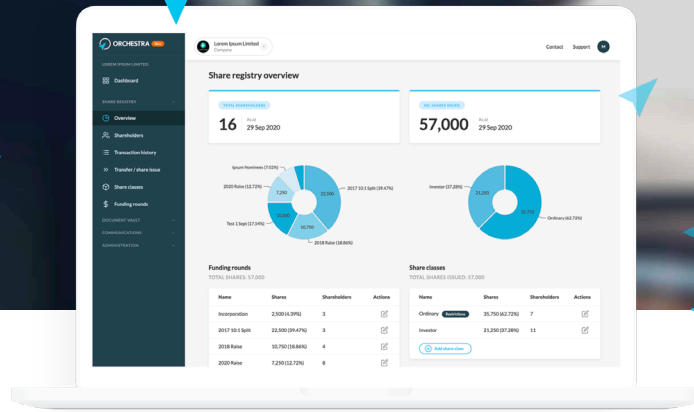

Access to **Secondary Trading events** for your co-operative to manage trading between members.

Dividend tool – streamline the calculation of dividend distributions and the creation of dividend reports.

5 reasons why you should use Orchestra

1.

You will create a trusted environment that will **nurture relationships with members** ensuring their continued support.

2.

Be confident that you are meeting your **co-operative compliance** needs by covering complex share registers and multiple share classes with different rights. Hold **unique and searchable information** against each member.

3.

The NZ Companies Office **integration** ensures that key updates in Orchestra flow through to the Companies Office and avoids double-handling. Orchestra is also designed to be accessed by your **professional services providers** such as lawyers and accountants.

4.

Orchestra combines a range of disjointed company compliance and excel/manual-based processes into **one platform**, and will scale with your co-operative.

5.

The Orchestra team are experts in this field and here to help. **Onboarding** includes a full audit of your information, and the set-up of a compliant share register.

HOW TO GET STARTED
